

## **Cut Bank, Montana and Surrounding Area**

Wyoming is surrounded by the following states: South Dakota, Montana, Idaho, Utah, Colorado and Nebraska most of which are sparsely populated even today. According to Census records our population compared to the rest of the United States is sparse and ranked accordingly: Wyoming 50<sup>th</sup>, South Dakota 46<sup>th</sup>, Montana 44<sup>th</sup>, Idaho 39<sup>th</sup> and Nebraska 38<sup>th</sup>. Towns are relatively small with a lot of open country in between them. The people who populated this country were trappers, miners, ranchers, farmers and the Native Americans who have been here for hundreds of years. The terrain varies from desert to plains to tall mountains, providing many choices for recreation and vacation.

I only mention the foregoing because Cut Bank, Montana is a small town, but is surrounded by beautiful country and has a lot of history that was instrumental in the development of our great nation.
